WELLSPUR DELICIOUS

(Trade Mark Registered)

WELLSPUR DELICIOUS is an early coloring red sport of Delicious produced on the newly discovered spur type of tree.

WELLSPUR DELICIOUS was discovered in the Azwell orchard of the Wells & Wade Fruit Co. in the heart of Washington's Appleland in the early 1950s. It has proven its early coloring characteristics and spur type of growth in succeeding generations. The fruit is of solid red coloring with a very accentuated Delicious shape. The tree is of the spur type structure and smaller than Standard (About 2/3 to 3/4 size).

WELLSPUR DELICIOUS PRICES

Size	Caliper	Each	10	25	50	300	1000
3-4'	3/8-1/2"	$2.00	$1.75	$1.25	$1.15	$1.10	$1.05

5-7'	5/8-3/4"	2.50	2.25	1.50	1.35	1.30	1.25

HI-EARLY RED DELICIOUS

Neff Strain Delicious*

The commercially proven bright red sport
That colors three weeks early!

HI-EARLY is a super sport of Red Delicious that has proven its ability to color three weeks early through three generations of commercial production. Discovered in the heart of Washington's Appleland. Thirteen years have been spent in proving and testing this sport which is now in commercial production all over the U.S., Canada and Mexico. Results show that this sport is unexcelled for early coloring, trueness to type, and storage quality.

APPLES

LODI—Gradually replacing Transparent as early yellow summer apple. Larger and firmer.

YELLOW TRANSPARENT—Crisp, white flesh. Good cooker and sauce apple.

BEACON—Red striped summer apple, good size, juicy, good sauce and pie apple. Also used as winter hardy stock.

RED GRAVENSTEIN—Large bright red. Very crisp and juicy.

RED JONATHAN—Deep ruby red sport of the old favorite.

RED McINTOSH—Early fall variety, high dessert quality. Also used as winter hardy stock.

RED WINESAP—Our own improved red strain, chosen because it sizes well, does not get black, does not russet.

RED ROME—Finishes with a brilliant ruby red color.

YELLOW DELICIOUS—Excellent pollenizer. Large size, waxy golden color. Commercial favorite. Bears young.

KING—Large red and yellow fruit, widely planted in Western Washington.

WINTER HARDY APPLE UNDERSTOCKS

Due to grower demand following the disastrous November, 1955, freeze we are growing several varieties of winter hardy apple understocks. We recommend that these trees be planted two to three inches deeper than ordinary trees so that the tree will have winter hardiness into the root zone.

BEACON
ANTONOVKA
HAWKEYE GREENING
McINTOSH

HIBERNAL-BALDWIN—This is a special double-worked stock with Canada Baldwin worked on Hibernal rootgrafts at a point about ten inches above the ground level. This, we feel, gives the hardiest and sturdiest framework possible. Please add 20c per tree when ordering this variety.

Please Read Carefully

GENERAL INFORMATION

GUARANTEE

We guarantee all nursery stock sold by us to be true to name. If any stock sold by us shall prove untrue to name we will replace free or refund purchase price, at the option of the purchaser.

We guarantee our trees to be in first class, live condition when they leave our packing house. Due to conditions beyond our control, soil, weather, etc., we cannot guarantee growth. We will, however, replace any trees that fail to live, at one-half of the original purchase price. All complaints for failure of trees to grow must be made in writing within six months of the date of delivery.

SALES TAX

Residents of the State of Washington please add 4% Sales Tax when ordering Nursery Supplies and Non-Commercial Fruit Trees. No tax necessary on Commercial Fruit Trees.

SHIPPING

Our shipping season is from November 16 to June 1. All orders received after June 1 will be held until the following fall.

We pay all shipping charges (except Nursery Supplies) on Commercial Orders (over 25 trees) of $10.00 or more to all points in Washington. Orders to other points in United States and Canada are F.O.B. Pateros.

FRUIT TREE PRICES BASED ON TOTAL QUANTITY

All Fruit Trees in an order take the same quantity price. Example, a total of 25 assorted apple, peach and pear take "25 rate".
